ABOUT US

Bell County Glass specializes as a commercial glazing subcontractor providing and installing aluminum entrances and storefronts, glazed aluminum curtain walls, sliding glass systems, aluminum sunshades, all glass systems, bullet proof glass, blast rated glazing systems, impact rated systems, fire rated glazing systems, door hardware, automatic entrances, translucent panel systems and skylights.

Our 22,500 square foot fabrication warehouse boasts some the newest automated tooling on the market for expediting framing and door fab work.

Although we are a Non-Union Facility, we also partner with Southern Painters Union, DISTRICT COUNCIL 88 LOCAL, to provide Union workforce on larger and out of town projects allowing us to work with G.C.'s all over the state and have even worked on projects in Oklahoma and Missouri.

We have been told numerous time that what separates us from others is our response to taking care of issues and problems and that is what we strive to continue to do to remain successful.

Our Philosophy

With 49 years of proven experience in completing projects for contractors in the federal, public and private industry, our subcontractor philosophy is to develop a long-term, collaborative partnership with all contractors. Through “boom times” and “slow times”, our objectives remain the same: to work with the most professional and competitive contractors in the region providing reasonable budgets, a safe working environment, a high level of craftsmanship, and responsive customer service.

We keep with what we do best and are very honest with G.C.'s if a project is beyond our capabilities.

We don't strive to be the largest, only the best.
